Dear Ms Hands

Pollution Prevention and Control Act 1999

Pollution Prevention and Control (England & Wales) Regulations 2000

Operator: PRM Newage Ltd, Foleshill Enterprise Park, Courtaulds Way, Coventry, CV6 5NX

Thank you for your letter of 11 January which has been passed to me as I deal with cases affecting Sites of Special Scientific Interest in Coventry.

The application site lies close to Webster's Claypit Site of Special Scientific Interest (SSSI). Based on the information provided, Natural England has no objection to the proposed development. The reason for this view is that the geological interest features are now destroyed and the proposal will not have a significant effect on the SSSI.

If you have any future applications affecting this Webster's Claypit, you can take this letter as confirming there is no need for consultation with Natural England.

Yours sincerely

A handwritten signature in purple ink that reads "J.A. Irving".
