

Making An Application

Making an application is easy and takes less time than a standard paper application.

Follow the steps below to make an electronic application :-

- Logon
- Select the relevant Local Authority
- Complete the online application form
- Select the electronic drawings to send
- And submit

Why not give it a try, once registered you can even make a test application.

The National Building Control Application Portal

A Local Authority Service

About Submit-a-Plan

Submit-a-Plan is the Local Authority Building Control (LABC) National Portal for making electronic and postal Building Control applications to ANY Local Authority in England, Wales and Northern Ireland.

The portal has been designed as a single location for both the general public and professional users to complete their Building Control applications online.

Users simply have to complete the LABC dynamic forms ready for electronic or postal submission to their intended Local Authority.

Submit-a-Plan users can also track the progress of electronically submitted applications using the online management system.

Applications Types

Submit-a-plan includes a wide variety of LABC forms to cover most building work.

Application Types Include:-

- **Full Plan Submission**
A Full Plan Submission requires detailed drawings to be submitted to the Local Authority before the work is undertaken.
- **Building Notice**
This is a basic application for non-commercial developments.
- **Replacement Doors and Windows**
Enables you to notify a Local Authority of such changes.
- **Regularisation Certificates**
Lets you inform a Local Authority of work that has already been carried out.
- **Dangerous Structures**
Reporting buildings which appear to be dangerous.
- **Demolition**
Allows you to notify a Local Authority Building Control department prior to carrying out demolition work.
- **Street Naming**
Applications relating to the naming and numbering of streets and buildings to obtain authorisation can be made using this form.

Form availability may vary between Local Authorities.

Online Application Management

DataSpace On-line is a new addition to the LABC Submit-a-Plan Portal to help applicants manage their applications.

DataSpace On-line provides applicants with lots of useful tools to enhance online Building Control applications providing features such as application history, document viewing and online tracking.

Revised applications can also be made through DataSpace On-line.

Features Include:-

- **My Applications**
Search through part complete and completed application history.
- **Documents**
Viewing application documents.
- **Tracking**
Monitoring of application progress (electronic applications).
- **Site Inspection**
Request a Local Authority site inspection.
- **My Profile**
Manage your profile details.
