 21. Ryton and Shrubs Wood

Future Vision

A) Coventry Way providing a high quality multi-functional recreational route and wildlife corridor.

B) Habitat creation in partnership with local landowners in the areas between the urban area and Coventry Way.

C) Greener city centre well-connected with the city's green infrastructure network.

D) "Spokes" providing well-defined, accessible routes into the local countryside.

E) Brownfield development providing new, attractive and well-designed urban green infrastructure.
