

We have decided to go ahead with the exercise and I will be your point of contact on the project working group.

I am writing to inform you (Coventry City Council, our local planning authority) of the vote and decision, so you can start your formal consultation and consideration process.

This information you requested was:

1. The area the Allesley Parish Neighbourhood Plan will cover is all of the land within the Parish boundary as it currently lies (see attached map)
2. We consider the defined area appropriate as it is a long established Parish with a clear agreed boundary.
3. The organisation making this application is Allesley Parish Council; which we consider to be a relevant and legitimate body. It is the properly elected Parish Council for the defined area and already abides by all legislation in place.

Please confirm receipt of this email and do get in touch if you need anything else.

Best wishes

Ian Farrar  
Councillor, Allesley Parish Council
