

# SLAVERY IS WRONG.

**You know it. We know it.**

**Let's do something about it together by knowing the **warning signs**.**

Individual appears fearful of police/authorities  
Exhibits signs of psychological trauma e.g anxiety, lack of memory  
Unaware they have been trafficked and believe they are simply in a bad job  
Limited freedom of movement and are unable to leave their place of work  
Have no identity documents in their personal possession, and little or no finances of their own  
Have limited access to medical care  
Seem to be in debt to someone  
Are women/men being moved between brothels or to other work locations?  
Do the people selling sex also appear to be living in the property too?  
This is not usual for a brothel.

Does the individual selling sex have an English vocabulary of sexualised words?  
Are there CCTV cameras at the entrance to the property.  
Do you see a bank of mobile phones with numbers written on the back of them?  
Is the person selling sex closely guarded? Do they have any untreated injuries? e.g cigarette burns, marks under arms or behind ears?  
Do the individuals look like they are taking cues from someone?  
Is there a distinct lack of home furnishings that you'd expect in a residential property?  
If there are locks on the doors, are there scratches or marks from the inside where someone has been trying to open them?  
Is there evidence that the individual has been forced/coerced/intimidated into providing sexual services?
