Local Authority Health Profile 2019

This profile gives a picture of people's health in Coventry. It is designed to act as a 'conversation starter', to help local government and health services understand their community's needs, so that they can work together to improve people's health and reduce health inequalities.

Visit <https://fingertips.phe.org.uk/profile/health-profiles> for more area profiles, more information and interactive maps and tools.

Health in summary

The health of people in Coventry is generally worse than the England average. Coventry is one of the 20% most deprived districts/unitary authorities in England and 21.8% (14,755) of children live in low income families. Life expectancy for both men and women is lower than the England average.

Health inequalities

Life expectancy is 10.9 years lower for men and 10.0 years lower for women in the most deprived areas of Coventry than in the least deprived areas.

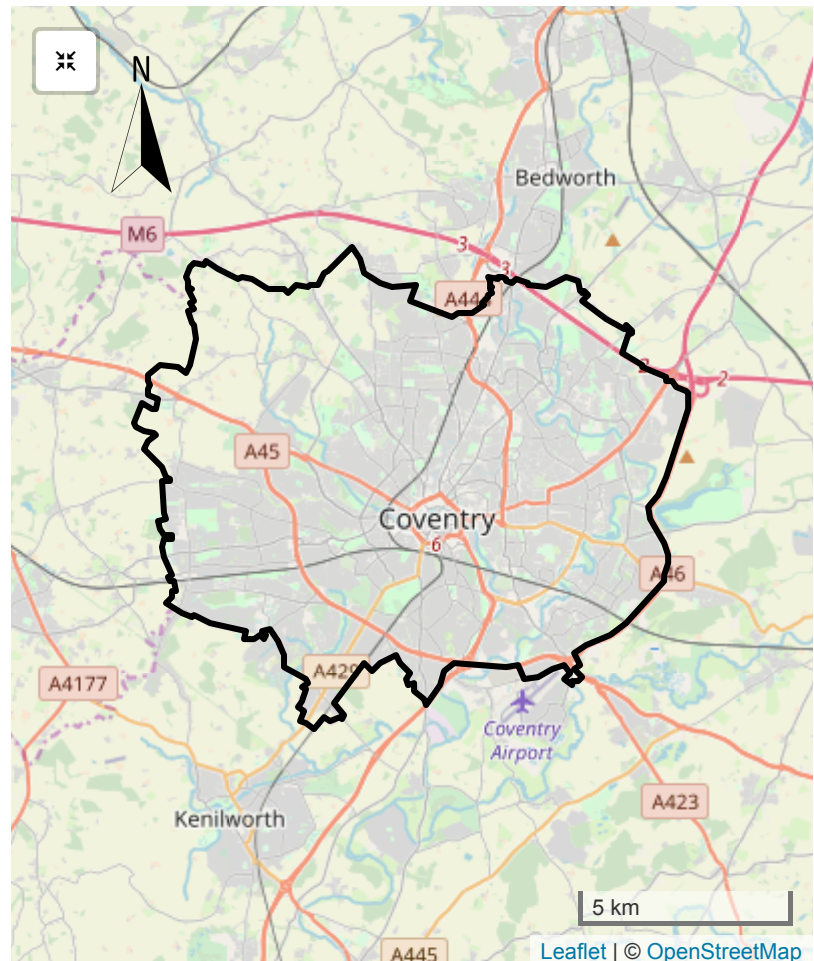

Child health

In Year 6, 23.5% (956) of children are classified as obese, worse than the average for England. The rate for alcohol-specific hospital admissions among those under 18 is 33*. This represents 25 admissions per year. Levels of teenage pregnancy, GCSE attainment (average attainment 8 score) and smoking in pregnancy are worse than the England average. Levels of breastfeeding are better than the England average.

Adult health

The rate for alcohol-related harm hospital admissions is 788*, worse than the average for England. This represents 2,342 admissions per year. The rate for self-harm hospital admissions is 199*. This represents 770 admissions per year. Estimated levels of physically active adults (aged 19+) are worse than the England average. The rate of killed and seriously injured on roads is better than the England average. The rate of new cases of tuberculosis is worse than the England average. The rates of violent crime (hospital admissions for violence), under 75 mortality rate from cardiovascular diseases and employment (aged 16-64) are worse than the England average.

* rate per 100,000 population
