Welcome to

Plug In Coventry

Plug In Coventry

Who is EO Charging?

- EO Charging is a British manufacturer of EV chargers.
- Founded in 2015 in Stowmarket, Suffolk.
- We currently sell chargers into 35 countries around the world.
- To date we have sold approximately 40,000 chargers.
- We are the charging partners of some huge brands such as Ocado, Sainsburys, DHL and Uber.

Plug In Coventry

Why have EV chargers?

- Promotes your business – green & eco friendly
- Generate revenue
- Attract customers – EV parking
- Tax benefits
- By 2035, over 50% of vehicles on the road will be electric
- Government grants available! Receive up to £350 off per chargepoint.

Re-launching the...

100 Charge Point Challenge

- We will be officially re-launching the 100 CP challenge on 1st January 2021
- The aim – to install 100 charging stations around Coventry at either workplaces or destinations
- EO will be sending out an email shortly with the full range of details!
- **Special launch offer: £50 off per socket until 100 chargers are installed**

Plug In Coventry

What is the process?

- Apply for Government grant (WCS voucher)
- Contact EO Charging via www.plugincoventry.org
- We will recommend appropriate EV infrastructure for your business
- Our installation partner Stratford Energy will carry out a site survey
- Receive proposal from EO for hardware, installation and ground works (proposal will include funding options available to your business).
