## Introduction

The Coventry Education Data Team 'Key Statistics Report' is a summary of school and pupil related statistics published by the Department for Education (DfE), compiled from data collected locally from schools and from all local authorities.

This report has been produced by the Data Team, who work closely with Coventry schools to collect, process and analyse their school and pupil information.

The Data Team also maintains 'Data Watch', which is a comprehensive suite of up-to-date reports, with charts and graphs, for Coventry schools. 'Data Watch' is an interactive product, which has been designed by the team to enable schools to quickly access and compare latest data with national and city trends. The system is also used by central staff to work in partnership with schools and review local authority data.

Copies of some individual 'Data Watch' detailed reporting may also be available for non 'Data Watch' users on request. Please contact the Data Team on 024 7697 1737 to discuss any specific requirements.

## (iv) Pre-school Population benefiting from Early Education

### Percentage of Coventry three and four year olds benefiting from early education places.

Early education places are in maintained schools and at private, voluntary and independent early years settings. The population estimates used to calculate the percent were derived from mid-year estimates and projections provided by the Office for National Statistics. They are subject to a margin of error and should be considered to be approximations and are not directly comparable to the EYC data, however the percentages do provide an indication of the proportion of three year olds accessing early education.
