

# CHANNEL PANEL

## SAFEGUARDING AGAINST RADICALISATION

Channel is the multi-agency safeguarding panel that supports children, young people, and adults who may be at risk of being exploited by radicalisers

Channel is a **confidential** process. We always explain our concerns and seek consent from the person involved.

1

2 As a panel, we assess the risk and then develop a **bespoke** support plan for each case.

Plans can include **support** with housing, education, employment, mental health, or any other challenges identified.

3

4 Ideological support is also common, which may include discussions with **credible and approved** experts.

Prevent is an **early intervention safeguarding service** therefore any individual who receives support from us will not be criminalised.
