Dear Sir/Madam

**Freedom of Information Act 2000 (FOIA)**

**Request ID: FOI464103573**

Thank you for your request for information relating to Godiva Festival 2022.

You have requested the following information:

- 1. The amount (performance fee) paid to The Libertines or their representatives for their performance at Godiva Festival in 2022.**
- 2. The amount (performance fee) paid to Tom Grennan or his representatives for his performance at Godiva Festival in 2022.**
- 3. The amount (performance fee) paid to Bananarama or their representatives for their performance at Godiva Festival in 2022.**
- 4. The total amount spent on all other artists combined, excluding the ones specifically detailed above for Godiva Festival in 2022.**

In response to your request, we confirm we do hold information pursuant to your request. However, it is our view that the information is exempt from disclosure under Section 43(2) – Commercially Sensitive Information. Section 43(2) exempts information from disclosure where disclosure of that information would, or would be likely to, prejudice the commercial interests of any person (an individual, a company, the public authority itself or any other legal entity). Furthermore, to reveal the fees could place us in breach of our contracts with the artists.

Therefore, it is the Council's position that the third-party providers and its own commercial interests

would be prejudiced and/or would be likely to be prejudiced by the disclosure of the requested information.

Once the information is disclosed this means that it will be in the public domain and it could not only be used by the requester but also any other providers in a similar market.

### **Arguments in favour of disclosure.**

- Promote accountability and transparency for the Council's decisions and in its spending of public money.
- Assist the public to understand and challenge our decisions.
- Inform the public of the activities carried out on their behalf, allowing for more user involvement and collaborative decision making.
- Enable the public to better scrutinise the public monies spent

### **Arguments against disclosure.**

- There is a public interest in allowing public authorities to withhold information which if disclosed, would reduce providers' ability to compete in a commercial environment.
- The successful providers operate in a competitive market. If prejudicing the commercial interests of the successful providers in the market would distort competition in that market, this would not be in the public interest.
- Disclosure of information may cause unwarranted reputational damage or loss of confidence in the Council.
- Revealing information such as a pricing mechanism can be detrimental to a provider's commercial interest. If an organisation has knowledge of a provider's business model, it can exploit this for its own commercial interest. This would also have a detrimental impact on the Council on other contracts and procurements by distorting the market, for the reasons stated above.

Having considered the arguments for and against disclosure, the Council has decided that the public interest in this case is best served by maintaining the exemption under section 43(2) FOIA and by not disclosing the information requested.

The decision to withhold the information requested is therefore upheld on the basis that Section 43(2) in relation to commercially sensitive information has been applied correctly.

However, to assist, the Council publishes all expenditure over £500 on the Council's website, which is available for you to access via the below link:
