Introduction

The Coventry Education Data Team 'Key Statistics Report' is a summary of school and pupil related statistics published by the Department for Education (DfE), compiled from data collected locally from schools and from all local authorities.

This report has been produced by the Data Team, who work closely with Coventry schools to collect, process and analyse their school and pupil information.

The Data Team also maintains a comprehensive suite of up-to-date reports and dashboards for central service teams. In addition data is uploaded to our LA partner website [NEXUS Perspective Lite](#) covering attainment, progress and key demographic trends giving schools a focused view of their information with national comparison. A further website, [FFTASPIRE](#), is also supported by the team showing past and estimated school and pupil attainment.

Please contact the Data Team on 024 7697 1737 to discuss any specific requirements.

School Population and Capacity

(iv) Pre-school Population benefiting from Early Education

Percentage of Coventry two, three and four year olds benefiting from early education places.

Early education places are in maintained schools and at private, voluntary and independent early years settings. The population estimates used to calculate the percent were derived from mid-year estimates and projections provided by the Office for National Statistics. They are subject to a margin of error and should be considered to be approximations and are not directly comparable to the EYC data, however the percentages do provide an indication of the proportion of three year olds accessing early education.
