

# Primary Partnership

## Vision & purpose

We aim to transform the life chances & aspirations of Coventry's young people by working relentlessly to raise standards of education. We are morally driven to collaborate; to develop & share expertise & to create exceptional learning experiences for young people across Coventry.

## Principles:

The Coventry Education Partnership is committed to:

- Putting young people at the heart of all decision making
- Collective accountability for all Coventry's young people
- Collective moral purpose

## Behaviours:

- Acting openly, with transparency. We never knowingly seek to undermine another school.
- Working together with all stakeholders; including students, parents, school staff, head teachers, governors, the Local Authority, & Trusts
- Building constructive & productive relationships across providers to enable & support school improvement
- Working collaboratively & strategically to give young people the best possible chance of success.

## Key Priority for 2023-2024 – SEND and Inclusion

### Whole System

- Increase the capacity of schools to meet a broader range of complex needs effectively through a workforce development strategy that is co-produced and commissioned through a system partnership, with the aim of increasing the confidence, skills and expertise of school based staff
- Continue to develop and roll out a range of specialist ERPs across the City to build a continuum of provision and extend choice
- With a focus on the impact of the pandemic on child development, target a range of early intervention programmes to develop speech, language and communication from the early years

### Network / Collaborative Focus

- Improve the quality of provision within each school/setting through focussed collaboration
- Ensure network/collaborative engagement in wider system strategies to improve provision
